

Crime Mapping and Analysis
April 3rd – 7th, 2017
Boca Raton, FL

Course Instructor:

Jim Mallard – Jim Mallard is the Crime Analyst for the City of Winter Park, Florida. Jim has prior experience as the Crime Analysis Supervisor for the Arlington, Texas Police Department where he managed a team of seven analysts, and also as a Crime Analyst with the Gainesville, Florida Police Department.

Jim has served as the Technology Director for the International Association of Crime Analysts (IACA) since 2004 and is also a curriculum developer and instructor for the IACA and the National Institute of Justice. In 2008, Jim was the recipient of the Innovations in Crime Analysis award for his work automating CompStat. Recently, Jim has presented on Crime Analysis topics in South America, Europe and Asia.

Crime Mapping is a five-day, hands-on computer-based course that covers the fundamentals of mapping crime for tactical, strategic, administrative, and operations analysis. After a review of the terminology and concepts of crime mapping, the class plunges directly into hands-on exercises using ArcGIS.

Students learn how to explore base maps, import or link to police data, geocode addresses, perform spatial and attribute queries, create thematic maps, interpret crime maps, and create effective mapping products.
